

WHOLE NEW EARTH

Intro

Verse 1

The sum of all we see did not arrive from nothing.
A story shrouded in our snowflakes and our stars.
It takes too much faith to call it accident.
And it begs that we all question who You are.

Pre-Chorus

But Your hand's stretching out to mine.
You're gifting me Your life.
You're offering a life with meaning here.
A life with meaning here.

Chorus

Let all of Heaven know You found me, found me.
And all the guilt melts off
because my history is history.
You came to steal my sorrow and call me home.
And when we meet You there,
We'll start a whole new earth.

Verse 2

There is no hope without a heaven.
No place of love without a choice of hell.
There is no human way to earn it.
Nor achievement that could make my soul feel well.

Pre-Chorus

But Your hand's stretching out to mine.
You're gifting me Your life.
You're offering a life with meaning here.
A life with meaning here.

Chorus

Let all of Heaven know You found me, found me.
And all the guilt melts off
because my history is history.
You came to steal my sorrows and call me home.
And when we meet You there,
We'll start a whole new earth.
